delivering wireless infrastructure

ACTION

BMS

The Wireless Division of Action Data Communication Ltd. has been operational since 2000. Our experience in RF technology; both indoor and outdoor, has grown significantly. With a full time Management Team, RF Engineering, extensive Project Management capabilities, and a contingent of Certified Technicians, Action Wireless is prepared to execute Wi-Fi projects of any size and scope. Contacts within the industry and a solid reputation for performance allow project partnerships across Canada. In conjunction with our portfolio of manufacturers, Action has developed a comprehensive plan to address “last mile wireless builds” for several customers to include Commercial Enterprises as well as with 1st Nations Bands delivering Voice and Broadband service to areas, and people beyond the digital divide.
